

Dear [Hiring Manager Name],

My experience developing and deploying AI models specifically for finance, including invoice reconciliation and data unification, makes me a strong candidate for the AI Developer position. At [Company Name], I implemented a machine learning solution for invoice reconciliation that reduced manual effort by [quantifiable result]. My expertise in NLP, data integration, and financial systems, along with my experience in deploying models, make me confident I can significantly improve your company's invoice reconciliation process.

Best regards, Itay Ben-Dan

Best regards,
